Trail Reports and news on Face Book @ [Erie PISC](#)

Snowmobile season to be a Double Doozy for snow lovers???

According to those in the know... the polar vortex will continue to affect our areas weather this year also... throw in the La Nina effect and we are supposed to have a good riding season... cross your fingers!!!

IMPORTANT NOTICE...

ALL PISC trails are on privately owned lands . Having said that, we must follow their wishes or else loose the right to ride on their lands. Many of our land owners are requiring us to stay off their property for the WHOLE hunting season 24/7. (YES... even at night) Many of our connecting club trail owners have also asked the same, so you will notice trail closed signs thru the end of hunting season on all PISC trails. **Sunday December 14th, 2014 our area trails will be open as long as there is adequate snow.**

Tips to get your sled ready to ride... Let's start with... Gas - Did you leave a last year's gas in your sled over the summer? If so, you will need to put new gas in your sled before your first ride. Drain the tank, put it in a vehicle that can handle flex fuel, then put fresh (non-ethanol if possible) fuel in... check your spark plugs. Check your carbs for gunk build up.

Belt - Do you have an extra belt? Are your **clutches** clean? your **bogie wheels**, your **skags**, the **slide rails**... Check the **bearings** in each bogie wheel, spin it, if it makes a grinding noise, replace them. Check both sides to your **slides** for wear and replace them now... **Shocks** - It is important to check your shocks, front and rear. Many of our PISC members can give you ideas on how to do this yourself, or ask them for referrals to a place to get them done. (check out our sponsor list to get local vendors who can assist you in this and any other repairs you may need assistance with. **Track** - Check the entire track, all the parts including the clips, lugs, and the studs... **Chain Case Oil** - OK, admit it... most of you have never even thought about checking the chain, or even know you needed to change the chain case oil. There are a few ways to do this, the easier way tends to leave the crud in the bottom, and really only cosmetically makes a small difference, or... you can pull the pipe and canister, pull the main cover off and clean out all of the mess inside. **If your sleds have mechanical reverse**, there are bolts that can come loose and cause a great deal of damage, so check those also. Replace the cover and fill with the recommended oil. Doing this now saves you a lot of aggravation and money.

New Spark Plugs (and spares in your sled) You may want to hold off on putting in your new spark plugs until after you start your sled for the first few times especially if you fogged your engine last spring prior to storage, this way you will not get the burnt fogging oil all over your new spark plugs.

If you have never worked on your own sleds, get to know some of your other PISC members, they can give you more tips, or even recommend who or where you can take your sled to get it ready to ride. Check out our website at www.snowmobilePISC.com for a list vendors whom support our sport

See you on the trails! Mike

Always looking for articles and pictures to publish in the newsletter... and Website
Email the webmaster at bjrmek@gmail.com Thanks!

PISC Events

Club Address- 10538 Rt.19N/Peach Waterford, PA

1st - Ryan Dickenson

King of the Trail

1st - Bob Sentele

Erie Cup

1st - Jerry Kacz

Thank you!!!

We want to thank all the members who help get the trails ready to ride, and keep them open and safe. We would also like to thank all the members who work behind the scenes for all their hard work and dedication. All PISC members have skills that can be used. Thanks for all you do to make this club special!!!

For details on work parties... check out the plans on Facebook "friend" Erie PISC

We are looking for someone who is interested in helping...

This may be the last news letter for a while... We need help! Gathering articles for the newsletters and / or membership coordination.

Contact Bev at 814-873-1752 if you would like to help! bjrmek@gmail.com

IT IS THAT TIME to renew your PISC membership for the 2014 /2015 season.

Memberships should be paid on or before the end of **November 2014.**

Make check payable to **Presque Isle Snowmobile Club**, and mail to **PISC c/o Bev Rapp- 7361 Clyde Dr. Erie, PA 16509**

As a member of PISC, you are also a member of ECSA - Erie Crawford snowmobile alliance, this give you voice to area trails and systems, another important organization is **PSSA - Pennsylvania State Snowmobile Association.**

PISC Pay Pal online registration is being worked on...

Enclosed is this year's PISC application. You can also choose to join PSSA by sending your money in with your PISC application -or- you can go online to PSSA at www.PASNOW.org

While PSSA continues to work to overcome threats to ridership, it is working doubly hard to make the Pennsylvania snowmobiling experience even better.

Although they can't guarantee snow, your colleagues in PSSA are working closely with State Government and its Membership to make well marked, well-groomed, and GIS mapped trails a reality.

- Accurate GIS mapping of existing trails on public and private lands
- Clearly marked trails and services
- Improved grooming
- Access to services
- Protection of trails & right to ride

CLUB House Keys...

Locks were changed last year. If you have an old key and want a new one, either bring it to a meeting, or call Bev @ 814-873-1752
Your old key, or a \$5 deposit is required
